

PERTH SOLAR FORCE
EC 012770

25-Year Workmanship Warranty

Our reputation has been built on delivering quality installations that stand the test of time.

To back this up, every solar system we install comes with a 25-year workmanship warranty, giving you complete confidence that your system has been installed to the highest possible standard.

What does this warranty apply to?

This warranty applies to:

- Solar systems installed by Perth Solar Force
- Installations completed by our in-house or approved installation teams
- Systems installed in accordance with Australian standards

The warranty begins from the date your system is installed.

What does it cover?

Our workmanship warranty covers any issues that arise as a direct result of how your system was installed.

This includes:

- Installation faults or defects
- Issues caused by incorrect workmanship
- Labour and service costs required to rectify the issue

If something isn't right due to the way your system was installed, we will:

- Inspect the issue
- Repair or rectify the problem
- Replace any affected components if required

All at no cost to you.

What does it not cover?

This warranty does not cover:

- Manufacturer faults (these are covered by separate product warranties)
- Damage caused by misuse, external factors or lack of maintenance
- General wear and tear over time

How does it work?

If you experience an issue with your system:

1. Contact our team
2. We will assess whether it is a workmanship or product-related issue
3. If it's workmanship, we'll arrange for it to be fixed as quickly as possible

Our goal is simple - to make sure your system performs exactly as it should for the long term.
